Annual CTC	salary					
	currency	String	Yes		Values: 1.USD 2.INR	salary
	min	Integer	Yes	1. Min salary cannot be greater than max salary 2. Choose within the given range	1. Salary is predefined 2. Range is predefined	salary
	max	Integer	Yes			

Show salary details to jobseekers [when Posted]	showToJobseeker	boolean	No		Values: 0/1 Default : 0	Not Applicable
Other Salary Details	otherSalary	String	No	1.Max Length: 250 2.HTML tags including < and > signs are not supported		otherSalary
Work Experience	experience					experience
	min	integer	Yes	1.Min Exp cannot be greater than max exp 2. Choose within the given range	1. Experience is predefined 2. Range is predefined	experience
	max	integer	Yes			
Keywords	keywords	Array of String	Yes	1.limit of 250 characters. 2.HTML tags including < and > signs are not supported 3.Text cannot be published without spaces at least after every 32 characters. 4. Max length of each keyword must be 80		keywords
Job Location:	locations		Yes	1.You can not select more than 9 locations.(includes city, international location) 2. 1 credit will be consumed for each 3 locations	1. Either cityIds or internationalLocation or both	locations
	cityIds	Array			1.Ids are predefined	locations

					Example ["259","260"]	
	otherCity	Array		1. Only A-Z, a-z characters are acceptable 1. Max length 20	1. Eg. ["abc","xyz"]	locations
	countryIds	Array		1.Only A-Z, a-z characters are acceptable for other city eg.[{"id":"180","city":"abaa"},{"id":"180"}]	1. Ids are predefined Example : [{"id":"180"}, {"id":"181"}] 2. If county and other city [{"id":"180","city":"abaa"}, {"id":"181"}]	locations
	otherCountry	Array		1. Only A-Z, a-z characters are acceptable 2. Max length 20	1. Eg. ["abc","xyz"]	locations
Industry	industry	Integer	Yes		1.Ids are predefined	industry
Functional Area	functionalArea	Integer	Yes		1.Ids are predefined	functionalArea
Job Role:	role	String	Yes		1.Ids are predefined	role
Hiring For:	hiringFor					
	name	String	No		Group/Employer name	hiringFor
	show	boolean	No		Values: 0/1 Default : 0 Function: Show this to Jobseekers	Not Applicable
Visibility Setting	visibilty					

	visibleTo	Integer	Yes		Visible To Only Me: 2 Visible To all in group:1 Visible To Selected People: 3 Default : 2	Not Applicable
	userNames	Array	Yes in case of [Visible To Selected People]		Array of User Name	Not Applicable
Notify Recruiters about Assignment of Requirement	sendNotificationMail	boolean	Yes		value:0/1 Default: 1	Not Applicable
No of Vacancies:	vacancies	Integer	No	1. Min value: 1 Max Value: 9998 Max Length:4 2. Only numbers are allowed		vaccanies
Reference Code	referenceCode	String	No	1. Max Length: 250 2.HTML tags are not supported in this field.		referenceCode

Graduation	ug		Yes			
	type	integer			Any Graduation : -1	graduation

					UG Not Compulsory : 0 Choose Graduation : 1	
	courselds	Array of Ids	Yes (if Choose Graduation)		ugcourselds =["5","6","7"]	graduation
	speclds	Array of Ids	Yes (if Choose Graduation)		ugspeclds= ["5.0","6.0","7.0"]	graduation
Both /Either Graduation & Post Graduation will be enforced	relation	integer			Both = 0 Either = 1 Default : 0	Not Applicable

Post Graduation	pg		Yes			
	type	Integer			Any Post Graduation : -1 PG Not Compulsory : 0 Choose Post Graduation : 1	postGraduation
	courselds	Array of Ids			courselds =["5","6","7"]	postGraduation
	speclds	Array of Ids			speclds= ["5.0","6.0","7.0"]	postGraduation
Both/Either Post Graduation & Doctorate will be enforced	relation	integer			Both = 0 Either = 1 Default = 0	Not Applicable

Doctorate	ppg		Yes			
	type	Integer			Any Doctorate : -1 PPG Not Compulsory : 0 Choose Doctorate : 1	doctorate
	courselds	Array of Ids			ppgSelection = 0	doctorate
	speclds	Array of Ids			ppgSelection = 1 ppgcourselds =["5","6","7"] ppgspeclds= ["5.0","6.0","7.0"]	doctorate

Attach Questionnaire:	questionnaireName	String	No		Questionnaire names defined	questionnaireName
	contact					
Contact Person:	person	String	No	1. Max length=35 2.HTML tags are not supported in this field		contact_person
Phone Number	number	String	No	1. Max length=15 2. Phone number validations(Should be numeric ,can start with + and '-' can be accomodated)		contact_number

Company Website	company Website	String	No	1.Single/Double quotes are not supported in this field 2.HTML tags are not supported in this field 3.prefix http:// or https:// to the URL 4. Max len = 75		contact_company Website
About Company:	aboutCompany	String	Yes	1.max len=250 2.HTML tags are not supported in this field 3.Text cannot be published without spaces at least after every 32 characters.		contact_aboutCompany
Show Contact Details to jobseekers	show	boolean	No		Value = 1/0 Default = 1	Not Applicable
Created By	createdBy	String	No		Naukri User Name Default: Super User	Not Applicable

Posting	postOn					
---------	--------	--	--	--	--	--

	platformType	Integer			Hot Vacancy : 12 Classified Job : 13 Naukri Private Job :17 Career Site : 21 Premium Vacancy : 11	postOn_platformType_JobNumber
Address	address					
	name	String	Yes (For Walk in if contact number is not provided)		Predined Address	postOn_responseMode_address_name_JobNumber
	addCompanyName	Integer			Values 0(No)/1(Yes) Default : 0	
Auto Forward Response	forward					
	emails	Array of Strings			1 .Maximum 2 .Pre Added Ids	postOn_forward_emails_JobNumber
	showToJobseeker	integer			Values 0(No)/1(Yes) Default : 1	Not Applicable
Refresh Schedule	refresh		No			
	frequency	Integer			Week : 1 FortNight: 2 Monthly : 3	postOn_refresh_frequency_JobNumber
	startDate	UNIX Timestamp				postOn_refresh_startDate__JobNumber
